Introducing the Donzi's Flagship Performance Cruiser. "eye of the tiger."

It appears out of the blue. As proud and powerful as the tiger, as dynamic and sleek as they come. The Donzi 38ZX puts adventure into boating.

Lightning quick and graceful, the 38ZX puts a new stripe on things, from the etched glass bulkheads to accent lights. The high-fidelity stereo CD system and state-of-the-art cockpit. The burlled wood custom dash that

encases custom VDO gauges. The McLeod custom powered seats, with 5-point airbag system, that adjust to cruising or racing modes at the touch of a button.

It doesn't matter if it's a jungle out there when you're the one in charge. When you're through prowling the seas, you can relax in the comfort and luxury of the large 38ZX interior. Come feast your eyes on this flagship of the ZX fleet, and see for yourself why Donzi is "America's Favorite Boat."

**Cruising at
the speed
of luxury.**

Luxury Plus Performance.

That defines the Donzi 33ZX. Open the companionway door and step into a richly appointed interior. The dining area easily accommodates four adults, while the fit-for-a-chef galley serves up every culinary convenience. The large enclosed head is outfitted with a shower, so you and your guests will cruise in comfort.

Now return to the cockpit and experience the legendary power of a Donzi.

The custom dash is made of burled wood and equipped with analogue gauges.

McLeod custom power seats conform to both cruising and racing modes. Put your hand on the zero-effort racing throttle, and put yourself in total control. Throttle up and feel the twin Big Block power reach speeds up to 65 mph with the stability and tracking that have made Donzi famous.

No other 33 foot performance boat can make these claims. But then, no other is a Donzi.

Big in attitude. **Real Space, Not Crawl Space.**

The Donzi 27ZX is big on power and long on speed, with a real spacious cabin. For sunning, skiing or flat-out running, the 27ZX puts the power and performance of our larger ZX's in a convenient take home size. Now you can lay back in the go-fast world.

Maximize Your Boat's Performance Potential

10 Models from
160 HP to 330 HP

1-800-525-5508

The more you know about marine power, the more you appreciate the importance of getting maximum thrust at the prop. All the horsepower in the world is meaningless without a good grip on the water. That's why all Volvo Penta DuoProp® sterndrives are designed to provide maximum traction. Traction gives you better performance. Traction gives you better fuel economy. Traction gives you better control at the helm. Volvo Penta pioneered and patented the DuoProp sterndrive over 13 years ago featuring twin counter-rotating propellers on a single axis. With these years of refinements combined with our patent, DuoProp is not only better than ordinary single-propeller sterndrives, it is the best performing twin propeller system in the water today.

DuoProp's counter-rotating props "straighten out" the water jet. More energy means more thrust. When a single-prop turns, water rolls off its blades with varying amounts of forward thrust efficiency. Closer to the edge, the blades more forcefully direct water straight back into the jet flow.

On the patented DuoProp, the second counter-rotating prop has a smaller diameter. It does not disturb the clean, maximum power stream from the forward prop's outer edge. Instead, it captures the turbulent water near the hub straightening out the water jet, maximizing thrust while minimizing energy loss. Dividing the power between two props reduces tip turbulence and cavitation. DuoProp's twin props have approximately 60-70% more blade surface area than a conventional three blade single-prop. Since DuoProp divides the power output between two props, tip turbulence and cavitation are significantly reduced, for optimum power transmission and control.

**15%
MORE
THRUST**

Maximizes Thrust and Improves Fuel Economy By harnessing wasted energy, a DuoProp sterndrive produces up to 15% more thrust from the same amount of horsepower than ordinary sterndrives. This adds up to longer range, fewer fuel stops and a lower operating cost.

Improved Power and Acceleration The added thrust from the increased traction of the DuoProp sterndrive moves a boat out of the hole, on plane up to 20% faster than conventional single-prop sterndrives. One advantage of this quicker acceleration is less bowrise for better vision and improved safety.

Advanced Engineering and Design Superior design and engineering allows Volvo Penta to utilize a more efficient prop shaft which is smaller, stronger and more reliable for increased performance and durability. The DuoProp propshaft is supported by 5 bearing sets for uncompromised strength. The smaller shaft allows a more streamlined gearcase resulting in less drag through the water. The innovative patented design along with the unique prop system results in the best twin counter-rotating propeller system in the water today.

16 Classic

Reintroducing a speed boat whose time has come ...again.

Long & Lean. Swift & Seaworthy. Graceful, sleek, stylish. It can only be the Donzi Classics, the epitome of pure speedboat design. Built to withstand the rigors of world-class racing, their deep-V hull

designs allow for excellent maneuverability on both calm and choppy waters. But performance is only part of this Classic tale. Quality construction provides the rest of the story, and covers every inch of these boats.

Talk about detail: Premium resins and bi-axial fiberglass are rolled into meticulously detailed molds. Graphics are gel-coated in, not taped on. Cockpit upholstery is top-stitched for extra strength and styling. Carpeting and seat cushions snap on and off for storage. Cleats, grab rails

18 Classic

and ski tow eyes are all constructed from top-quality stainless steel.

Hatch hinges and cowl vents are chrome-plated. Even the Phillips-head screws are all turned to the same position on the stainless steel rub rail.

It's been 30 years since Don Aronow created these Donzis. Today these timeless beauties still turn heads and make your heart race. They take you back to a time when you promised yourself that one day, you'd own a Donzi Classic.

The Donzi Medallions – Sleek and functional, the Donzi Medallion series owes its state-of-the-art construction to Fiberglass Integrated Structural Technology – F.I.S.T. Medallions contain no wood. Instead, bi-axial stitch-woven fiberglass joins with high-density Divinycell foam coring in an impressive show of strength. The hull's structural warranty lasts a lifetime (or 10 years if transferred).

All the modular interior components lock securely into a molded fiberglass cockpit. Seating, rugs and paneling remove for easy storage. Take delivery of a Medallion, and get a 5 year \$1500 certificate toward the purchase of a new interior package. See your dealer for details.

Join the jet set. **Fast & Fun.** It's like being in a sports coupe convertible, only better. Donzi's dual console 152 Jet Boat has a Sportjet engine that will take it to over 40 mph in as little as 4 inches of water. Up to 4 adults can go for a spin in the wrap around and hot tub seating. There's plenty of dry storage for gear you don't want to get wet. So join the jet set, and join in the fun today.

Racing stripes. Sportsmanship With Style. Put it through as many paces as you want - the 212XL Medallion will earn its stripes every time. From a day of skiing to an evening spent cruising, the racy styling and Donzi detailing combine to put the sport back into boating. With the dependability of F.I.S.T. Construction, and the heritage of Donzi performance, this bow rider is a winner wherever you go. (A great value, too.)

212 Medallion

Camp sunset.

Overnighting Made Easy.

Here's one they never taught you in Scouts: how to turn a day on the water into a weekend of fun. Start by boarding your Donzi 210XL Medallion. Cook dinner in your full galley. Serve while the sun is setting on the horizon. Stretch out on the removable cushions, and let the sound of lapping water soothe you. Drift off into peaceful slumber in the spacious plush cabin. Then do it all again the next day. And the next, and...

While we endeavor to be as accurate as possible, certain changes in standard equipment, options & the like may have occurred which would not be included in this brochure. This includes, but is not limited to, information relating to fuel capacity, weights, speeds, fuel consumption and overall performance as they are estimates and could/will vary with each vessel and with each application. Your Donzi Dealer is your best source for up-to-date information or specific details about your vessel.
